# Social Narrative

## Museum of Natural History

Prepared in partnership with Autism Nova Scotia

---

I will look for this sign; this is where I go to see the whole Dinosaur Exploration 2 exhibit.

I will walk down a short hallway to start my visit to the exhibit. It will look like this:

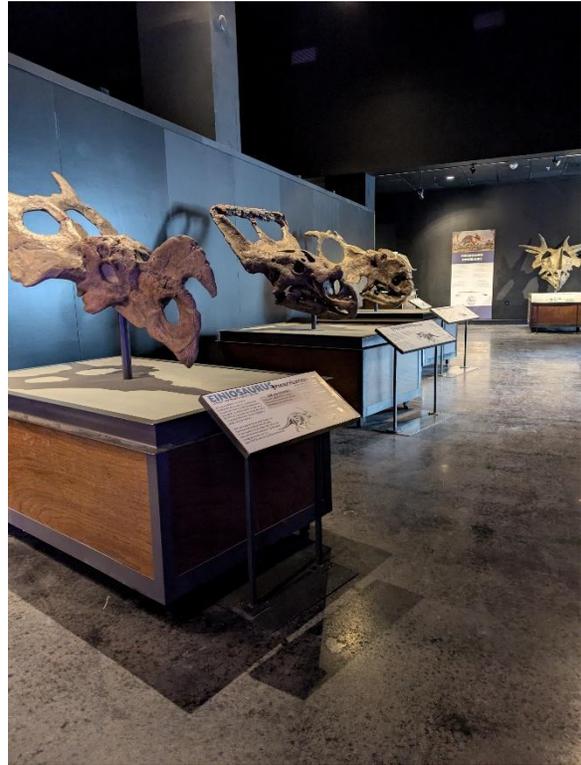

---

When I enter the exhibit, I will see many different dinosaurs.

---

There will be some full dinosaur skeletons and some skulls. There will be different coloured lights on the skeletons.

---

I will not go past the rope barriers around the dinosaur skeletons.

I will follow the museum's rules and not touch the skulls on display.

---

There is seating in the exhibit where I can take a break if I need to.

There are dinosaur books I can sit and look at in the exhibit.

---

I can even learn what dinosaurs used to live in Nova Scotia!

I can use a brush to uncover a dinosaur in a dig box. There could be a lot of visitors at the dig box, and I may need to wait for my turn.

---

When I have finished with the Dinosaur exhibit, there is still more to see in the museum.
